Summary

A Full Stack Web Developer with solid experience in developing and deploying modern web applications. Proficient in React.js, Next.js, and JavaScript on the front end, with expertise in Node.js, Express.js, MongoDB, MySQL, and PostgreSQL on the back end. Experienced in building RESTful APIs, managing databases, and implementing CI/CD pipelines using tools like GitHub Actions, Docker, and Kubernetes. Adept at working in collaborative, agile environments and solving complex technical challenges. Passionate about clean code, continuous learning, and contributing to open-source projects.

Experience

Interface Technologies Pvt. Ltd. | November 2024 – Present

Location: Srinagar, Jammu & Kashmir, India

Role: Full Stack Web Developer & Team Lead

Tech Stack: Node.js, Express.js, MongoDB, MySQL, PostgreSQL, React.js, Next.js, REST APIs, Git, Docker, Kubernetes, Render, Vercel and many More

- Led development of multiple full-stack web applications, handling both backend architecture and frontend delivery while managing a small team of developers.
- Designed and developed scalable RESTful APIs using Node.js and Express.js, supporting high-performance data operations across MongoDB, MySQL, and PostgreSQL.
- Built responsive, SEO-optimized web applications using React.js and Next.js, improving performance and user engagement.
- Delivered end-to-end solutions from requirement analysis to production deployment, ensuring code quality, scalability, and maintainability.
- Implemented CI/CD workflows and deployment strategies using platforms like Vercel, Render, Docker, and Kubernetes.
- Collaborated in Agile environments using Git/GitHub, ensuring structured releases and efficient team coordination.

Key Projects:

Rahvaan – Travel Platform

- Developed a full-stack platform connecting verified drivers with tourists for secure and reliable transportation.
- Implemented backend systems for authentication, booking management, and driver verification workflows.
- Live:** <https://rahvaan.com>

ILS Imperia – Education & Campus Management System

- Built a multi-module platform covering e-learning, student management, lead tracking, and campaign automation.
- Implemented features such as course enrollment, video lectures, assessments, and academic/fee management systems.
- Designed scalable architecture to support multiple modules and user roles efficiently.
- Live:** <https://ilsimperia.com>

ILS Imperia Tech – Company Website & Lead Generation Platform

- Developed the official company website to showcase services, products, and organizational capabilities.
- Implemented dynamic contact and lead capture systems, enabling potential clients to generate business inquiries.
- Built responsive, SEO-optimized pages using Next.js to improve visibility and user engagement.
- Optimized performance and content structure for better page speed and conversion rates.
- Live:** <https://ilsimperiotech.com>

Education

2023
University of Kashmir
Bachelor of Computer Applications (BCA).

Technical Skills

- **Front-End Development:**
React.js, Next.js, HTML5, CSS3, Redux, Context API
 - **Back-End Development:**
Node.js, Express.js, REST API Development
 - **Database Management:**
MongoDB, Mongoose, MySQL, PostgreSQL, Database Design & Optimization
 - **Deployment & CI/CD**
Render, Vercel, Netlify, GitHub Actions, Kubernetes
 - **Other Skills**
Version Control (Git), Docker, Testing & Debugging, Agile Development
-

Soft Skills

- **Problem Solving**
Ability to identify, analyze, and solve complex coding or deployment issues.
 - **Analytical Thinking**
Skilled at breaking down user requirements and building efficient solutions.
 - **Effective Communication**
